INTRODUCTION

Students who enroll in this programme will gain sound knowledge of the maturation of FinTech, while gaining insights into new technologies set to change the future of finance. Furthermore, they will be given the opportunity to critically engage in an assessment of who is currently adopting and driving financial technology, and how this will affect the greater financial services sector going forward.

OVERVIEW OF THE HIGH-LEVEL PROGRAMME

Module 1: Financial Markets and Fintech
Module 2: Banking, the Customer and Fintech
Module 3: Blockchain and Capital Raising
Module 4: Big Data and AI in Finance
Module 5: VC & CE Investments in Fintech
Module 6: Strategies in Disruption

OUTCOMES

1. Understand financial technology and economic growth.
2. Analyse the future of payments and how different generations make use of banks.
3. Define the future of finance and money.
4. Review the data analytics process.
5. Gain insights into ways to fund, acquire and collaborate in Fintechs.
6. Defining your strategy, your why and the importance of disrupting your business to remain relevant.
